PS-3	I am a renter	I'm trying to track the status of my booking request	But I don't know whether the owner has approved or rejected it	Because there is no real-time booking update system	Confused and anxious
PS-4	I am an admin managing the platform	I'm trying to ensure only verified owners list properties	But it is difficult to manually monitor all users	Because there is no structured approval workflow	Concerned about platform trust and safety
