Project Name	HouseHunt – Finding Your Perfect Rental Home
Maximum Marks	2 Marks

Target Customer Segment

- Renters (Students, Working Professionals, Families)
- Property Owners
- Platform Admin

Customer Problems

🔹 **For Renters**

- Fake or unverified property listings
- No real-time booking status
- Time-consuming manual house search
- Lack of trust in online rental platforms

🔹 **For Property Owners**

- Difficulty managing multiple inquiries
- No centralized booking tracking system
- Fake tenant requests

🔹 **For Admin**

- Hard to monitor unauthorized property listings
- Need structured approval system

Existing Alternatives

- Searching properties through local brokers
- Using social media groups
- Listing on platforms like 99acres or Magicbricks
- Manual phone calls and WhatsApp communication

⚠ **Limitations of Existing Solutions:**

- No proper verification
- Lack of transparency
- No centralized booking tracking

- Communication gaps

Proposed Solution

✓ Admin-approved owner registration
✓ Verified property listings
✓ Booking request and status tracking
✓ Secure JWT-based authentication
✓ Separate dashboards for Renter, Owner, Admin
✓ Centralized property and booking management

Problem – Solution Fit Template:

Problem	Solution in HouseHunt	Fit Justification
Fake property listings	Admin approval for owner accounts	Ensures only verified owners can list properties
No booking transparency	Booking status (Pending/Approved/Rejected)	Provides real-time updates to renters
Manual communication	Centralized dashboard & booking system	Reduces confusion and delays
Security concerns	JWT authentication + bcrypt encryption	Protects user data and login credentials

Behavioral Fit

HouseHunt fits customer behavior because:

- Users already search for properties online
- People prefer web-based solutions
- Customers want instant updates
- Secure login builds trust

The system integrates naturally into existing user behavior patterns while solving frequent rental frustrations.

Value Proposition

HouseHunt provides a secure, transparent, and user-friendly rental platform that connects verified owners with genuine renters, ensuring trust, efficiency, and real-time booking management.
